Total Grant Request: \$ _____

The mission of the Foundation is to support, enhance and expand Academic, Athletic, and Artistic opportunities for all students at La Costa Canyon High School through active partnerships with students, teachers, parents, alumni and the community. The Grant Committee's objective is to provide direct funding to teachers that we believe will enhance the educational experience and opportunities of our students. Generally, the Grant program is not intended to fund consumables (paper, markers, etc).

This year all grants will be made with one application. Preference will be given for classroom or educational enhancement expenditures and grants that affect the most students. All grant requests will be shared with each department chair and Principal Marcus for review.

To assist us with our review, please answer the following questions:

1. What is your grant request?

2. Describe how this enhances your student's educational experience and/or opportunities.

3. How many students will this impact?

4. If full funding is not possible, would partial funding help? Please explain.

5. If funding is not granted, will project be abandoned? Please explain.

6. Have you researched other funding sources (i.e. your department, private corporations, community organizations, the School District, outside grants, etc.)?

7. What month do you need your grant purchased/funded?
